Hi Dan,

I just wanted to thank you for the great job you performed in getting rid of the water in my crawl space. You and your crew did a very professional job and were also very friendly to my large dog, which insisted on "inspecting" everyone who entered the house.

Despite running into an unexpected obstacle that required an extra full day of work, you never even mentioned any possibility of having to charge more, and stuck to your original bid price. It was great to deal with someone like you who knows that his word is his bond.

Thanks again,

Don Boyll
